ADDITIONAL ENGINEERING ACTION ITEMS

There were no additional engineering action items.

KLEINWOOD REGIONAL WASTEWATER TREATMENT PLANT ("KRWTP"), PROJECT FOR CONVEYANCE OF WASTEWATER, AND FIFTH AMENDMENT TO AGREEMENT FOR KRWTP

Mr. Joubran discussed the proposed design and construction of lift station and force main improvements related to the proposed permanent transport of Champions Municipal Utility District's ("Champions MUD") sewage flow through the District's sanitary sewer trunk lines and force main located along Champion Forest Drive and Cypresswood Drive to the KRWTP. He reported that Champions MUD provided new average daily flow data in the amount of 260,000 gallons per day ("gpd") that was substantially less than the previously provided daily flow of 500,000 gpd. He stated that the new daily flow data substantially impacts the proposed modification project for the District's lift station. He reported on discussions with the District's operator and recommended replacing the District's force main prior to accepting the additional flow from Champions MUD due to the age of the force main and the logistics of replacing the force main after the flow is increased. He reviewed estimated design and construction costs for the proposed design and construction of lift station improvements and replacement of the force main and discussion ensued regarding various cost sharing and connection scenarios. Following review and discussion, the Board authorized Mr. Joubran to meet with representatives of Champions MUD to discuss a proposed alternate option for transporting Champions MUD's sewage flow that

includes bypassing the District's lift station and directly connecting to the District's force main, subject to approval by the Texas Commission on Environmental Quality. The Board concurred that the proposed option includes cost sharing between the districts for replacing the force main based on proportional flow amounts.

The Board reviewed a Fifth Amendment to Agreement Providing for the Ownership, Operation, Maintenance and Expansion of the Kleinwood Regional Wastewater Treatment Facilities and the Creation of the Kleinwood Joint Powers Board (the "Fifth Amendment to Agreement for KRWTP"). Discussion ensued regarding provisions of the proposed Fifth Amendment to Agreement for KRWTP reflecting Champions MUD's acquisition of capacity in the KRWTP per a purchase agreement with Cy-Champ P.U.D. and providing admittance as a member of the KRWTP Joint Powers Board. After review and discussion, Director Petrick moved to approve and authorize execution of the Fifth Amendment to Agreement for KRWTP, subject to attorney review. Director Parker seconded the motion, which passed by unanimous vote.

AGREEMENT FOR RECLAIMED WATER SERVICE, RECLAIMED WATER SUPPLY AGREEMENT, AND EFFLUENT REUSE DISTRIBUTION SYSTEM

Mr. Phelps reviewed with the Board three samples of bills from other municipal utility districts containing a line item for the fees charged by the North Harris County Regional Water Authority (the "NHCRWA"). Following review and discussion, the Board requested that Mr. Phelps provide recommendations regarding a proposed rate to be charged by the District to recover the NHCRWA fees charged to the District.

CONDUCT HEARING ON TERMINATION OF WATER SERVICE

The Board conducted a hearing on the termination of water service. Mr. Phelps presented a list of delinquent customers and reported the residents on the termination list were delinquent in payment of their water and sewer bills and were given written notification, in accordance with the District's Rate Order, prior to the meeting of the opportunity to appear before the Board of Directors to explain, contest, or correct their bills and to show why utility services should not be terminated for reason of non-payment. Following review and discussion, Director Parker moved to authorize termination of delinquent accounts in accordance with the District's Rate Order and direct that the delinquent customer list be filed appropriately and retained in the District's official records. The motion was seconded by Director Normand and passed by unanimous vote.
